I am specialised in Network and Security, a problem solver, a young Saudi who graduated from the U.K, experienced in Aramco JV, a startup firm, built and managed IT department from scratch.

A summary:

I began in 2008 with a self-learning about cybersecurity subjects. In 2010, I joined College of Telecom & Information in Riyadh to obtain a Networking diploma degree, graduated with very good score, Won CCNA NetRiders world competition as a top talent. In 2012, I moved to the U.K, scored 6.5 in IELTS, got my bachelor's degree in Computer Network, received excellence letter from the Royal Embassy of Saudi Arabia in London. In 2015, I returned to Riyadh and kicks off as an IT field engineer.

In 2016, I joined a start-up-company, a JV with Aramco & Saudi Electricity, designed a complete IT Network Infrastructure, developed a website, managed cyber-security threats, built relationships with vendors, as well as handled the IT operation and maintenance with little experience and training. This was the most challenged time as a fresh graduate and indeed was followed by many responsibilities and achievements.

Employment Experience

Cybersecurity Specialist

The GCC Lab, a Joint Venture with (Aramco & Saudi Electricity)

Sep 2016 – Present in Dammam

Achievements and Responsibilities

- Achieved a saving of more than 4 Million SAR by negotiating vendor agreements.
